EDUCATION

2020 - 2024	CEMFI - Ph.D. in Economics
Spring 2023	UC Berkeley - Visiting Ph.D. Student - Sponsor: Andrés Rodríguez-Clare
2018 - 2020	CEMFI - M.Res. in Economics and Finance
2015 - 2017	Bocconi University - M.Sc. in Economics and Social Sciences
2012 - 2015	Bocconi University - B.A. in Economics and Social Sciences

FIELDS

Primary: International Trade and Urban Economics
Secondary: Labor Economics

WORK IN PROGRESS

▷ **School Access and City Structure**

Job Market Paper

This paper quantifies the impacts of schools on the internal structure of cities. While their direct effect on the residential choices of households with kids is well-established, I explore the indirect consequences they bear for childless households and the geography of labor supply. Using data from Madrid, I first unveil extensive spatial sorting based on whether a household has children and link it to the need of parents to access both schools and workplaces. Then, I develop a general equilibrium quantitative urban model with households differentiated by parenthood and skills. This incorporates the school choice problem faced by parents, and allows for the geography of schools to affect housing and labor markets in equilibrium. The empirical estimation relies on a unique dataset covering the universe of applications to publicly funded schools, with which I estimate parents' preferences and quantify school access. To address the challenge of the feedback loop between neighborhood composition and school quality - due to the relevance of peer effects - I make use of instruments based on the historical expansion of the city. Counterfactual simulations reveal that schools constrain the residential choices of parents, and as a consequence induce an opposite reallocation by childless households. This key result mutes the effects of school frictions on housing and labor markets and the consequences for segregation.

CONFERENCE AND SEMINAR PRESENTATIONS

2023 UEA European Conference, Bocconi; UEA Summer School, Montreal;
BUDIE Workshop, CEMFI; Trade Workshop, UC Berkeley;
RUSH (Regional/Urban/Spatial/Housing) Brownbag Seminar*;
48th Meeting of the Spanish Economic Association, Salamanca (awarded PhD student grant)*;
European Winter Meeting of the Econometric Society, Manchester*

* indicates scheduled presentations

RESEARCH EXPERIENCE

2020 - 2023		CEMFI : RA for Paula Bustos
SUMMER 2019		CEMFI : RA for Diego Puga
2017 - 2018		Fondazione Rodolfo Debenedetti : RA for Paolo Pinotti and Tito Boeri
SPRING 2017		Baffi-Carefin Centre at Bocconi : RA for Italo Colantone

TEACHING EXPERIENCE

FALL 2022		CEMFI : TA Mathematics - Average evaluation: 4.9/5
SPRING 2021		CEMFI : TA International Economics - Online only, no evaluation

ADDITIONAL INFORMATION

CITIZENSHIP:	Italy
GENDER:	Male
LANGUAGES:	Italian (native), English and Spanish (fluent), French (conversational)
SOFTWARES:	Stata , R , Julia , L^AT_EX , QGIS
